A MANY-SIDED CANADIAN ASSET

In the last few years, since the Canadian National Railways began to earn substantial operating surpluses, it has become customary to refer to the system as a great national asset. True enough, the system is an asset to the country, and as time goes on, and it gradually reaches the stage of meeting all its commitments, the value of that asset will increase.

A recent statement by Sir Henry Thornton, however, shows that the Canadian National Railways system is an asset in other ways. In this statement, Sir Henry showed that the Canadian National Railways was one of the largest purchasing agencies of Canadian goods in the Dominion.

The vast nature of the purchases of the Canadian National Railways can be judged from the fact that in the last five years its purchases have been as high as \$140,000,000 in a single year, with \$110,000,000 as the lowest of the five years. Last year, over three million tons of Canadian coal were purchased, 12,000,000 railway ties, and millions of feet of large timbers from British Columbia. Materials other than these, valued at

\$58,000,000, were also on the purchasing list.

This means much to the Canadian people as a whole, for this money goes back to them in wages and in payment for natural products. An organization with such purchasing powers would be a valuable asset to Canada even if it did not turn one cent back into the treasury of the country.—The Oshawa Times.

GRADUATING NIGHT AT BIBLE SCHOOL

Friday March 29th, was the red-letter day being the closing of the Mountain View Bible School and that evening marked an eventful epoch, not only in the lives of the First Graduating Class of the school but also in the history of the Canadian Northwest Conference of the M. B. C. Church, for this is the only Bible School owned and carried on under the auspices of the Mennonite Brethren in Christ Church either in Canada or the United States.

Long before the appointed hour all the seating capacity of the Didsbury Church was occupied by an eager attentive audience, some of parents and friends of the Graduates having come hundreds of miles to be present, much to the delight and satisfaction of their worthy sons and daughters.

Led by the Faculty, the Graduates marched down one aisle and up the other to their seats on the platform, singing to the time and tune of "Lead On O King Eternal" while Miss J. Adam officiated at the piano. After the congregation sang "All Hail the Power Jesus Name", Mrs. M. A. Finlay led in a very effective prayer. This was followed by scripture reading, special singing and the commencement address from Luke 15:8 by Rev. Clark of Red Deer which was very appropriate for the occasion.

The final event was reached when the president, after receiving the diplomas from the worthy preceptress had the pleasure in turn of handing them to each member of the graduating class, who, after the Benediction, had numerous congratulations showered upon them by parents, relatives and friends. It was a very touching scene.

Thirty seven students were enrolled this year and a larger student body is expected at the opening of the fall term, Oct. 29, 1929. A Year-Book will gladly be sent to any prospective student on request.—Contributed.

Railroad To Be Built East of Didsbury

On good authority we publish the following concerning railways:

The Acme branch of the C. P. R. is to be extended to a point north of Mayton this year, in fact at the present time tenders are being called for in connection with its construction.

There is also glad tidings for the western residents, in as much that the C. P. R. has obtained the charter for the building of a railroad which will tap the country west of Didsbury.

WESTCOTT W.I.

The Westcott W.I. met at the home of Mrs. Ira Levagood March 28th. The topic for the afternoon was "Agriculture," taken by Mrs. M. Jacobsen who gave a very interesting paper on the "Spencer Sweet Pea—its cultivation and care." Mrs. Harry Steckley demonstrated the making of an Angel food.

The Institute decided at this meeting to join the League of Nations Society.

We were very pleased to have with us our Constituency convener, Mrs. Boyce, who gave us an interesting as well as instructive talk on Institute work.

The next meeting will be held at the home of Mrs. R. McFarlane on April 25th.

Canada's Future

In a very fine address by Mr. Graham Spry, secretary of the Association of Canadian Clubs, and printed in "The Canadian Nation," the subject of Canadian unity is dealt with under the title "One Nation, Two Cultures," which was likewise the heading over the article appearing in this column last week. In fact, last week's article was inspired by Mr. Spry's address.

In his speech, Mr. Spry urged that, above all, the two Canadian races should be frank with each other, speak out their feelings freely and courteously, and attack that underlying menace, the fear, the suspicion which ignorance breeds; and "working for common national ends, working the same national institutions, and developing the same national estate, they will learn to know each other, to recognize each as a Canadian, to feel a sense, not of fear, but of partnership." Then he said:

"One nation, two cultures; one nationality, two races; one loyalty, two tongues, on this the Dominion of Canada is founded, on this the partnership rests by solemn contract, by mutual trust. And thus it must abide or perish. Let it abide, and the nation will grow greater, and the world richer; that two races, full of spirit, rich in the heritage that time endows, a tongue, a culture, each their own and shared at times in common, may live in amity as one, secure, serene, partners in the development of the noble estate to which we are fortunate successors. Let it fail, let race seek to dominate race, let prejudice take its rein and ride rough shod through the fine bonds that unite us and Confederation shall perish, and the peoples of Canada be thrust towards a future, dark and impenetrable."

Looking back over the sixty-odd years of Confederation, can any one imagine what the position of the present Dominion of Canada would be had the Canadian people of both races in 1867 not agreed to sink their differences and agree upon compromise policies and enter into a solemn compact with each other, both for the present and the future. Had such agreement not been reached there would have been no Confederation. Had there been no Confederation what would in all likelihood be the position and status of British North America today?

Would it be British? It is extremely doubtful. Long ere this it is highly probable that large sections of what is now Canada would have become merged in the United States. Certain it is that failing Confederation, the isolated Crown colonies would have remained weak, undeveloped. Instead, we have a great and prosperous Dominion, rapidly forging to the front as one of the great nations of the world, a tower of strength to the Empire, and already exerting no mean influence in the councils of the nations. The union effected by the solemn guarantees of the act of Confederation was not alone the creation of the Dominion; it was the salvation of the country at large.

Not only must the letter of that contract be lived up to, but the spirit must be observed. Failure on the part of the Canadian people, whether of British or French extraction, to recognize both the letter and the spirit of the union effected by Confederation will be fatal to its existence. And if Confederation fails, what are we to put in its place? Confederation is weakened by sniping tactics on the part of one race against the other, and if Confederation is weakened it may perish. On the other hand, cordial acceptance of the spirit of the Confederation pact, which we all laud annually on Dominion Day, will add strength to the structure, and enable a united Canadian people to resist all attacks upon their sovereignty and develop in peace their great heritage.

As Mr. Graham Spry truly states, any other future for Canada but that bound up in full acceptance of terms and spirit of the Confederation pact is indeed dark and impenetrable.

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Utilizing Waste Product

Hot Water From Pueblo Factories Cleans Ice From Streets

Hot water as a waste product from ice plants and other factories of Pueblo, is being used by the city highway department to remove snow and ice from the highways. Street sprinklers and flushers are filled with the hot water and driven to the downtown streets. With one sprinkler following another, both directing streams of hot water onto the pavement, snow and ice melt immediately and are drained away. The hot water, obtained free, saves the city large amounts usually spent shoveling and hauling snow off the streets.

The Fletcher signature marks the genuine, purely vegetable, harmless Castoria, doctors everywhere advise for those ill of babies and children, such as colic, constipation, colds, biliousness, etc.

PAINS IN THE BACK

These Are Usually Due To a Weakened Condition Of the Blood

The muscles of the back are constantly under heavy strain, and have but little rest throughout the day. They are therefore in need of all the nourishment and strength that plenty of pure red blood can give them. Unless they have this help, you will have backache and continue to have it.

Backache seldom or never means kidney trouble. It is nothing more than the tired, worn-out muscles of the back showing their exhaustion because of the lack of good, pure blood. The one generally recognized efficient blood builder is Dr. Williams' Pink Pills. When the blood has been improved through the use of this medicine backache disappears. Mrs. F. Fairbairn, Essex, Ont., tells what Dr. Williams' Pink Pills did for her in a case of this kind. She says: "I suffered for nearly three years with a weak back. At times the pains were so bad that I had to walk half doubled over. I had tried several doctors with very little benefit. A friend urged me to try Dr. Williams' Pink Pills. I did so, and oh, the joy of once more being able to stand up straight without suffering intense pain. After using two boxes there was no doubt they were helping me. I used eight boxes in all and have not since had a sign of the trouble. I can do all my housework and not feel tired and worn-out as formerly. For all this I thank Dr. Williams' Pink Pills."

If your dealer does not keep these pills you can get them by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Prisoner For Eight Years

Russian Boy Punished By Father For Joining Red Army

A story of an eight-year imprisonment of a boy by his father in a pit near their hut in the village of Savchukovo, Kursk province, has been brought to Moscow. In 1918 young Tarasoff joined the Red Army and three years later returned to his native village filled with enthusiasm for the new order. His reactionary father told him "the red army marches against the Czars and you must not serve its ranks."

According to the report, that night old Tarasoff dug a deep cave in his garden and binding his son hand and foot threw him into the pit apparently to keep him there until the return of the old order. Recently the father died and the villagers, chancing upon the living grave, extricated the worn and wrinkled man who although only 29 years of age had snow white hair. He was said to have been placed in a hospital.

You Can't Dye a Dress with Promises!

You can't dye a dress—no matter how careful you may be—without real color. That's the idea behind Diamond Dyes. They are made to give you real service. They contain from three to five times more aniline than other dyes on the market.

Next time you want to dye, try Diamond Dyes. See how easy it is to use them. Then compare results. Note the absence of that re-dyed look; of streaking, or spotting. See how soft, bright, new looking the colors are. Then observe how they keep their brilliance through wear and washing. If you don't agree Diamond Dyes are better dyes, your dealer will refund your money.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

MARSHAL FOCH IS BURIED WITH IMPRESSIVE RITES

Paris.—Marshal Foch was laid to rest near the tomb of Napoleon. More than a million heads bowed as the great soldier was borne on a gun carriage from the stately gothic nave of Notre Dame Cathedral to the simple and severe chapel of the Invalides.

Church and State, separated in France for more than twenty years, united for the day to provide the devout Christian soldier with a national funeral unparalleled in pomp and magnificence. The world has seldom seen its like before and it is not probable that such a show of solemn splendor will be repeated in this age. The Republic of France and the Church of Rome were joined by ten nations whose armies Foch commanded in the greatest of wars in heaping honors upon the bier of the modest master of ten million warriors.

Most of the civilized world was represented at the church funeral, peremony, and in the cortege that moved with military pomp and precision through the streets and squares of Paris from Notre Dame to the golden dome of the Invalides.

The great outpouring of people who watched the funeral procession provided the crowning stone of the great edifice of honor and love which a grateful nation and friendly peoples of other lands have steadily built to the greater glory of Foch's name since the day he was chosen from all military commanders of the Allies to lead 10,000,000 fighting men under 10 flags.

Premier Poincare, who was president of France during the war, said in his brief funeral address that Foch had had no other ambition than to serve, and had wished no other recompense than the assurance of having accomplished his duty.

American Soldier Reported "Killed In Action" Asks To Be Declared Alive

Santa Rosa, Cal.—Thomas R. Smith, of this city, reported "killed in action" during the World War, is very much alive and has appealed to the American Legion in an effort to have himself declared so.

For 10 years the government has been insisting that Smith's sister, Mrs. Nellie Johnson of this city, accept \$10,000 in war risk insurance for her brother's "death."

Mrs. Johnson and her brother both steadfastly refuse to admit he is "dead," and now Smith has asked the American Legion to aid in straightening out the records at Washington.

Chinese Law Courts Busy With Divorces

Number Of Cases Greatly Increased Under Nationalist Rule

Shanghai.—Divorce has come to China to stay. With the National Government more firmly entrenched and the women of the country quickly seizing their newly found freedom, the Chinese law courts daily are handling an increasing number of divorce actions.

Last year a record was set in Shanghai courts with a total of more than 1,400 divorces, a gain of more than 800 over 1927. In 1926, before the establishment of Nationalists rule in Shanghai, divorces failed to reach the hundred mark.

Survey of the 1928 divorces based on statistics compiled by the United Press, reveals that spring and summer are the "big" seasons, with fall and winter trailing quite a distance behind.

More than 60 per cent. of 1928's divorces were filed between May 1 and September 30, the remaining 40 per cent. in the other seven months of last year. December wound up the year with 75 cases, just a little more than 5 per cent. of the year's total.

Disastrous Prairie Fire

Large Strip Of Country Swept Bare By Flames

Regina.—A prairie fire started northwest of Nedeauville, Sask., destroyed thousands of acres of pasture, the buildings on three farms, and was responsible for a man being sent to the hospital at Medicine Hat where his wounds, though serious, are not thought to be fatal.

A strip of country about ten miles wide and twenty-five miles long was swept bare. At its closest to the main line of the C.P.R., it was ten miles away, north of Tompkins.

George Campbell lost his barn and outbuildings but managed to save his stock, some of this being staged when running through the fire. His loss is estimated at \$1,000.

John Fisher and family were driven from their home, which was destroyed by the flames, and are staying with neighbors. Mr. Fisher also lost all his buildings and feed for spring work on the farm. His loss is placed at \$1,500.

Fred Robinson, by plowing a fire-guard around his buildings saved these, but lost all his feed, valued at \$300.

Train Crew Arrested

Responsible For Wreck At Drocourt According To Coroner's Finding

Parry Sound, Ont.—Responsibility for the wreck of two Canadian National trains at Drocourt with a death toll of at least fourteen was placed on the crew of the northbound train No. 3 in the written verdict of Special Coroner J. B. Broughton.

Criminal proceedings were at once instituted against the three surviving members of the crew and charges of manslaughter were laid against Engineer J. V. Alexander, Fireman E. Riley and Rear End Brakeman Charles Gorrie.

The arrest of the three trainmen followed the verdict of the coroner's inquest on the death of Horace Smith, one of the victims of the wreck. According to the verdict the collision of the two fast trains was "due to the neglect of the crew of Train No. 3 in running past the meeting place at which they had orders to stop."

It is expected the three accused trainmen will appear for trial at the spring assizes, which open here May 14.

Radio Commission Making Western Trip

Will Investigate Domestic Conditions In the Broadcasting Field

Ottawa.—The royal commission on radio broadcasting headed by Sir John Aird of Toronto, will leave for Western Canada on April 5, to inaugurate its program of hearings into domestic conditions in the radio broadcasting field.

The commission will proceed direct to Vancouver, where the members will attend some of the sessions of the National Council of Education, which has placed on the convention agenda several papers relating to the radio question. A debate will also be held on the subject: "A national policy or exploitation of the radio." Hearings will be held in Vancouver and Victoria.

Public sittings will be held later in Edmonton, Calgary, Saskatoon, Regina, Moose Jaw, Brandon, Winnipeg, Port Arthur and Fort William, followed by a tour of Ontario, Quebec Maritime provinces and a visit to a number of centres in the United States.

The final report of the commission is expected to be submitted to the government before Parliament progresses.

Many Receive Assistance

Thousands Helped Last Year Under Empire Settlement Act

London.—Answering questions in the House of Commons Right Hon. L. C. Amery, secretary for the Dominions, stated that during 1928, 27,523 persons proceeded to British North America with financial assistance under the Empire Settlement Act. This compared with 20,619 to Australia and 2,156 to New Zealand. Information was not available regarding the number of assisted migrants who returned to the United Kingdom in the same period, he said.

Counsel For Alberta

Edmonton.—S. B. Woods, K.C., has been retained as counsel for the Alberta government in the British Columbia appeal to the Canada Privy Council against the grain rates decision of the railway commission. Both Alberta and Saskatchewan are supporting the coast province in this action, and Mr. Woods will represent this province when the case comes up at Ottawa. No date for the hearing has yet been announced.

GIANT GERMAN OCEAN LINER IS PREY OF FLAMES

Hamburg, Germany.—The mysterious fire which virtually destroyed the new North German Lloyd liner Europa, was expected to have an important effect on the North Atlantic traffic war.

The Europa, a 46,000-ton vessel, was being built for five-day service with the Bremen between New York and the English Channel, and was considered a challenge to the Cunard White Star and Hamburg American lines.

The ship caught fire while only a few workmen were aboard her. She was scheduled to make her maiden voyage in July and construction was nearing completion when the fire broke out suddenly.

Cause of the fire probably never will be known, it was said, since it started in four places simultaneously deep in the hold. Experts did not believe it was arson, however.

The vessel was insured for 40,000,000 marks (about \$9,500,000) but the loss was estimated at about 50,000,000 marks (about \$11,890,000). Shipyard engineers claimed later, however, that the damage was not that large.

Although the ship was not a total loss several experts said it would be useless to rebuild it. The North German Lloyd Company was expected to refuse to accept it from the builders, Blohm and Voss.

The fire was spectacular. Starting before dawn, it was not brought under control until 3 p.m. The boilers, machinery, hull and lower decks escaped the fire.

None of the few workmen aboard when the fire started were injured, but a fireman was overcome. Eight hundred men were thrown out of work by the fire.

Planning Survey Of Pacific Great Eastern

B.C. Seeking Services Of Alberta's Deputy Minister Of Railways

Victoria.—J. Callaghan, deputy minister of railways and telephones for the province of Alberta, has been in conference with Premier S. F. Tolmie and cabinet ministers in connection with the proposed survey of the Pacific Great Eastern Railway, it was learned. The services of Mr. Callaghan, while the survey is being made, is sought by the government, as he was connected with the P.G.E. work when the line was first laid.

Premier Holme stated that as yet it has not been decided whether the services of Mr. Callaghan could be obtained.

Lightning Strikes Peace Tower

Electric Storm At Ottawa Turned Day Into Night

Ottawa.—Batteries of a recent severe electric storm centred their bombardment upon Parliament Hill and lightning playing directly over the buildings, struck the Peace Tower and caused the mighty pile of granite to shudder with the shock.

Lightning conductors prevented any serious damage. Only the tower elevator was put out of order. A second blinding flash struck at the southeast corner of the centre block, just above the rooms of the press correspondent, causing some consternation. There was no damage here, however.

The storm made the day as dark as night.

For Winter Fair Building

Saskatoon Sask.—The provincial government is prepared to contribute one-third of the cost of a \$100,000 winter fair building at the exhibition grounds here on condition that the city of Saskatoon and the federal government donate like amounts. Charles Agar, M.L.A. for Saskatoon County made this announcement recently. Mr. Agar says it is practically assured that the federal government will contribute and almost certain the city would.

PENSIONS FOR THEM, TOO

On the occasion of a recent gathering of veteran railway men associated with the Canadian National, attention was called in the daily press to the great value of a pension system in connection with public or corporation service. "There can be no doubt," says the Toronto Globe, "as to the value of the pension system."

All that was said on the occasion referred to applies with greater force to the case of the Christian ministry. To any one who gives thought to the situation it is obvious that the Church cannot expect the best possible service from her ministers if they are haunted, during the years of their activity, by the necessity of accumulating sufficient means to provide for old age and retirement. The nature of a minister's work makes it exceptionally desirable that his mind should be free from financial anxieties. When little, if any, more than a living is provided during the years of active work, it is reasonable to expect that some provision should be made for the period when activity is no longer possible.

DO YOUR SHOPPING NOW!

There are many things which December and April do not have in common, weather being the first point on which they differ, but there is one bit of good advice which can be accepted without question either in December or April. This message of pure wisdom is: "Do your shopping early."

The buying public has learned from sad experience that Didsbury stores do not emulate the traditional "general store" in buying stocks in the lump for the next five years. Parodying that bromide, "The early bird catches the worm," it can be said with truthfulness that "The early shopper catches the pride of the pride of the shops." If you don't buy early you take what the other shoppers have refused.

Spring and summer buying is limited chiefly to wearing apparel, household needs and the implements of out-of-doors life. At this time of the year the mind of every man, woman and child turns to the thought of light and colorful raiment, to furnishings which will lend a cool summery atmosphere to the home and to the multitude of accessories to summer play. Our merchants recognize this seasonal demand and provide amply for it, but it is manifest that the wide choice of the new stocks can not be maintained to the end of the season.

Many people defer their spring buying until the passing of winter. Others advance their seasonal buying a few weeks and give themselves the privilege of leisurely shopping and wide choice. The late shopper saves no money and loses that enviable satisfaction given only to the early shopper.

Spring stocks are fresh on the counters. The very first choices are already being made. He and she who hesitate will lose. Shop early for spring as well as for Christmas.

have paid expenses the merchant depended upon the Saturday sales for the major portion of his week's profit. Needless to say the average merchant would have been exempt from excess profits taxes in those days.

The newspaper is given credit for discovering the possibility of scattering the Saturday peak load over the six business days of the week and it

was newspaper advertising which has achieved the present more equitable distribution of the week's business. Saturday is still the merchant's busy day, but now he is only a little less busy on the preceding five days.

This is only one of the many services performed for business by newspaper advertising. It is irrefutable that a great part of the increase in

business experienced by the retail stores generally in recent years has been created by newspaper advertising. Newspaper advertising has been the "Aladdin's Lamp" of the retail merchant. There are still isolated towns where one may see for himself what "might have been" the nation over if newspaper advertising had never been.

ROD AND GUN

Vivid pictures of life in the Canadian outdoors are contained in several splendid articles in the April issue of the national sporting magazine, Rod and Gun and Canadian Silver Fox News. Among these is a robust story of the experiences of a trapper-guide in British Columbia under the caption "Life on the Frontier" by Frank D. Kibbee. Another entertaining story of actual experience on the trail of far northern Ontario is contributed by Robert James.

In addition to such fine stories, the contents include the usual special articles on shooting and fishing subjects by Bonnycastle Dale, C. S. Landis, W. C. Motley, G. P. Sladen, J. W. Winsor and others. The Canadian Silver Fox News department is full of unusually interesting and authoritative articles on this great industry.

FOLK FESTIVAL FOR GREAT WEST

Norse handicraft will be one feature of the festival. Left, Poul Bai, famous Danish harpist, who will render Viking songs. Right, a colorful national costume which will be one of several hundred.

The Festival will be held under the auspices of the Canadian Pacific Railway and the musical features have been organized in co-operation with the Conservatory of Music of Regina College. It has the support of the Government of Saskatchewan whose Premier, Hon. J. G. Gardiner, suggested that this year it be held in Regina. In this connection W. M. Graham, Indian Commissioner, Department of Indian Affairs, Saskatchewan, is arranging to provide an Indian section where women's work demonstrating native industry will be lent for the Festival from the Saskatchewan Government collection. Further, the Canadian Handicrafts Guild, through its Regina committee, is arranging a general exhibition of handicraft work, collected from all over Canada, but emphasizing the handicrafts of the people of the West.

Is the folk song, dance and handicraft festival developing into a permanent feature of life in the Prairie Provinces of Western Canada? It would seem so. The remarkable success of last year's festival at the Royal Alexandra Hotel, Winnipeg, raised the hope that it would become an annual event, and the announcement of this year's festival to take place at Regina, March 20th to 23rd, has been generally welcomed as an indication of the establishing of the Festival in the artistic life of the prairies. Those who witnessed last year's festival will never forget it. National costumes formed a riot of color, and national dances a perfect whirl of studied and dashing movement, while the music, both vocal and instrumental, was of such a standard as to set a high mark for future festivals.

The programme already arranged for the Regina Festival will be thoroughly representative of the various races that make up Canada's West. Eighteen racial groups will contribute their national songs and dances, and handicrafts, and the display of many colored national costumes will form a series of brilliant pictures.

All four countries of the British Isles will participate and European races that comprise three new Canadian will include Hungarians, Czechs, Ukrainians, Poles, Rumanians, Swedes, Estonians, Finns, Danes, Norwegians, Dutch, and Germans, while from older Canada there will be French-Canadians, and the Department of Indian Affairs is arranging an exhibit of the handicrafts of the Indians of the prairies.

A great field of varied endeavour and the fruit of a score of different cultures will thus be laid before the people of the West during the Festival and the way Canada is being enriched by her New Canadian citizens from overseas will be demonstrated. Concerts in connection with the Festival will be given at the Hotel Saskatchewan and in the Drake Music Hall of the Regina College.

Here Are the Facts -- Read Them

Many people buy without investigation of facts and on snap or emotional judgment. Every year it is estimated a million car buyers change their ideas on their car after they have had it six months. Consider the following facts before purchasing your next car—and then decide for yourself which car offers the most value for the money.

1. Do you know that no car under \$2,000 outside of Ford is putting on Houdaille double acting Hydraulic Shock Absorbers as standard equipment?
2. That no car under \$1500 except Ford has triplex shatterproof windshield glass as standard equipment.
3. That Ford is the only car under Buick with three-quarter floating axle.
4. That Ford is the only car under Buick with Torque tube and Radius drive construction.
5. Ford is the only car under \$1500 with five-bearing transmission.
6. That the New Ford has 25 roller and ball bearings in its chassis.
7. Ford is the only car under \$1500 with three quarter irreversible steering system.
8. That Ford is one of the few cars built today that has five steel spoke wire wheels as standard equipment.
9. That wrist pins in motor are machined to .0002 and are of full floating type.
10. That aluminum alloy pistons are balanced to an accuracy of two grams. This is the finest balance of any piston in any car regardless of cost.
11. That when car is travelling 50 miles per hour—the revolutions per minute of motor is only 2053.
12. That gear ratio is 3.7.
13. That the actual road clearance of the New Ford is 9.1-2 inches—highest of any American stock car.
14. That the New Ford car has proven itself in public hands this past year as one of the finest performing cars ever built—from a standpoint of pick-up, hill climbing ability, speed and riding comfort.
15. That the New Ford has proven itself beyond any doubt as the most wonderful winter car ever built. It starts easily in cold weather and bucks snow beyond belief—ask the owners.
16. That service and dealer responsibility behind the New Ford is unequalled by that of any other car built.
17. That the New Ford holds the road at high speeds as good as cars being sold at highest prices.
18. Lastly—That the New Ford stands out supreme in its field in mechanical design, specifications, equipment, quality and precision workmanship.

A Meatless Luncheon

The following tested recipes solve the problem of a tasty luncheon without meat:

Tomato Chowder

- 2 cupfuls Borden's St. Charles Milk.
- 1 pint hot water.
- 2½ cupfuls canned tomatoes.
- 1 medium sized onion sliced thin.
- 1 tablespoonful butter or butter substitute.
- 4 tablespoonfuls flour.
- 2 teaspoonfuls sugar.
- 3 teaspoonfuls salt.
- ¼ teaspoonful pepper.
- ¼ teaspoonful soda.
- 6 water crackers split.

Melt the butter in the top part of the double boiler, add the onion, and cook it gently till yellowed, about five to eight minutes. Pour in the milk and water, set over the lower part of the double boiler and scald. Mix the flour, salt and pepper with enough cold water to make a smooth cream; stir it into the milk, and cook about fifteen minutes, stirring occasionally. Heat the tomato with the sugar; when boiling, add the soda and combine it with the thickened milk. For serving, put a split cracker which has been dipped in warm water, in each plate.

Golden Text: "Then I said, Here am I; send me."—Isaiah 6.8.
Lesson: Isaiah 6.1-13; 7.1-17; 20.1-6; 38.1-22.
Devotional Reading: Psalm 118.12-19.

Explanations and Comments

Isaiah's Heavenly Vision, 6.1-4.—In the year that King Uzziah died, I saw the Lord sitting upon a throne, high and lifted up; thus the prophet Isaiah begins his account of his vision and call to service. "This is more than a date; this is an experience!" exclaims Dr. C. R. Brown. Isaiah had a vision, a dream, in which God was vividly real to him.

"Isaiah saw God. Do men see Him today? Was He any nearer to Jerusalem than He is to London or New York? Did that old Hebrew possess faculties different from ours? Can we see and know God? What do we mean by seeing and knowing God? A spirit cannot be seen with physical eyes. We mean that we are so convinced of the reality of God that our thinking and living are determined by that conviction; so sure of Him that we live as if we saw Him by physical sight."—Amory H. Bradford.

"The conception of Isaiah's vision is singularly pure and lofty. It is a worshipper's thoughts when he draws near to God. The vision is but the service in the temple transfigured. The prophet fell into a trance while holding the service and musing on its meaning. Suddenly the house and service and the ministers became transfigured; the walls went apart, and the roof lifted itself up till it seemed the high dome of God's palace on high under which he stood, and the Lord the King sat upon His throne receiving the adoration of all holy beings."—A. E. Davidson. And His train filled the temple. There was

"No face; only the sight
Of a sweeping garment vast and white
With a heaven that I could recognize."—Browning.

"The king was dead, but God was alive. Who shall say that it was not something of the same strength of faith that came to James A. Garfield, when, speaking to a discouraged multitude in New York after the assassination of Lincoln, he exclaimed, 'God reigns; and the government of Washington still stands!'"—J. T. McFarland.

Queer Rule In India

There is a rule in India that a younger daughter may not marry before the elder. In case the younger wishes to marry however, the way out is to marry the elder daughter to a tree or large flower, due care being taken that it be not a pine, poplar or elder, for these are sacred and it is difficult to get a divorce from any of these.

on Farming and Live Stock Offer You Practical Information and Advice Based on Many Years of Successful Experience

The greatest array of practical, feasible ideas for the Canadian Farmer ever gotten together in one book and it is

FREE

This book is offered as a contribution to the development of farming and live stock breeding in Canada. A group of outstanding farmers and agricultural authorities have put into writing the methods and findings which in years of experience, have proved most successful.

The practical experiences of these men have been compiled for Imperial Oil Limited, by the Hon. Duncan Marshall, former Minister of Agriculture for Alberta, and put into the book "Field and Farm Yard" which is a veritable storehouse of information and advice based upon actual and successful farm operation.

This book is offered to you free by Imperial Oil Limited. "Field and Farm Yard" has been written by specialists in farming and stock breeding. There are articles on feeding beef steers and dairy cows, written by Thos. McMillan, M.P. and S. G. Carlyle, Alberta Live Stock Commissioner. Selecting sires for herds, flocks, and studs is discussed in this book, among them being W. A. Dryden, Col. Bartley Bull, Col. Robert McEwen, W. L. Carlyle and R. A. Wright. Grain farming is treated by Dr. C. E. Saunders, producer of Marquis Wheat. All recommendations are based on the practical experience of farmers who are now using them to increase their incomes.

In the introduction which Hon. W. R. Motherwell, Federal Minister of Agriculture, has personally contributed to this book he writes in part: "The information is of such a useful character and covers such a wide field in agriculture that the book cannot fail to be of interest, and value to any and every farmer into whose hands it may fall."

"Field and Farm Yard" is handsomely illustrated. Among its many illustrations are pictures of Canadian prize-winners and champions in different breeds of live stock. These in themselves are of special interest. You will find the book intensely interesting at first reading and the longer you have it and the more you use it, the more you will value it as a handy reference.

CHAPTER XVI.—Continued

"Oh yes," he replied absently.
"You were gone for some time this morning she stated."

"Yes," he concurred, "I went up to bring Connie."

"Oh!"

Janet's fine eyebrows lifted slightly, and she looked at Donald with a curious intentness. "Why didn't she come?"

"She wasn't home."

Her woman's intuition long ago had told her that the "woodsprite"—as Donald called Connie—was madly in love with him. As she looked at him now and noticed his pre-occupied air, a pang of jealousy shot through her heart like an arrow. Was it possible that he had begun to realize that the wild girl of the woods was not a child, and that a love for her had been kindled in his heart? The thought made her feel faint and she tried to put it from her mind.

Lunch was finished now and they were walking back to the lake. Douglas invited the party to take a trip around the lake in a motor-boat, to which they assented gleefully.

Janet hesitated as Donald turned away with Wainwright. "Aren't you coming Mr. McLean?" she called.

Donald turned and shook his head. "I may be needed here," he said briefly.

Janet flushed to the roots of her dark hair and bit her lip in anger. She was not used to being thwarted in her desires.

Donald and Wainwright seated themselves on a bench under the wil-

lows and lighted cigarettes. Donald was ill at ease. The sound of Connie's tragic sobbing was ringing in his ears. He could see her little figure writhing on the ground in a tempest of grief that had torn at his heart-strings. He sprang involuntarily to his feet and began pacing the ground with quick, nervous strides. Wainwright glanced up at him interrogatively.

"You seem worried," he volunteered.

"I am," Donald admitted briefly.

Donald was in a welter of indecision. How should he broach this delicate subject? Although poor as he the proverbial church-mouse, Connie's father had the pride of Lucifer. There was natural dignity in his bearing, a certain aloofness in his manner, that in no way interfered with his unfailing courtesy, but had always precluded exchange of intimacies. He had resided in this wilderness for many years, but none could say that they had any more knowledge of his affairs at this moment than on the day of his arrival.

Donald decided to take the plunge. He sat down on the bench beside Connie's father and related the scene he had witnessed that morning—of Connie's preening before the mirror with the magazine page pinned to the logs; of the struggle with her hair; of the flour sack, and of the piteous sobbing of the heart-broken child.

Wainwright's face flushed painfully. There was a look of poignant suffering in his grave eyes. Of all the races in the world, the English—especially of the better class—fight most stoically to hide their distress.

Wainwright leaned forward, his throat working convulsively as he struggled to regain composure.

"I hope you do not consider me presumptuous," said Donald, a note of anxiety in his tone.

Wainwright's hand reached forth to clasp Donald's firmly. "No, I do not doubt your sincerity. An inordinate sense of pride has kept me in my present circumstances. This circumstance you have related has brought me to a realization that it is a selfish pride, as it has denied Connie the privileges to which she is entitled. There is nothing I can say," he went on in bitter self-condemnation, "that can even partially condone or palliate my stupidity. I should have known that she would require proper clothing now that she is grown up. As a matter of fact"—he paused, his distress acute—"my finances are at a low ebb."

"How old is Connie?" asked Donald, hoping to relieve Wainwright's embarrassment.

"Nineteen."

Donald's head came up with a jerk. "What!" he almost shouted.

"She is nineteen," Wainwright reiterated, a peculiar expression in his eyes as he noticed Donald's bewilderment.

"Nineteen!" Donald re-echoed, a bemused look on his face. "Great Scott! This is a surprise. I thought of Connie as being not more than fourteen or fifteen."

"Connie's healthful outdoor life has tended to keep her young, and her mode of dressing enhances the youthful effect," said her father as he sat down wearily, a far-away look in his eyes. "Her mother," he went on softly, a tremor in his voice, "was just like her; at the age of twenty-five she looked almost a child." He turned to Donald. "No doubt you have wondered why I buried myself in this wilderness?"

Donald nodded. At this moment they were interrupted by members of the Sports Committee, who wanted Donald's advice on a matter pertaining to the afternoon's programme.

It was evident to Donald as he withdrew that Wainwright had been about to disclose his past history, a history which had been locked in his heart these many years.

At three o'clock the crowd began

drifting toward the race-course. The centre of the valley had been cleared of under-brush, and the long grass burned under the watchful eye of the fire-ranger. A small creek and a few swampy places had been "corduroyed" with cedar poles and then covered with soil. A judges' stand, with a few hastily erected seats for Janet's party, stood near the finishing point. The horse-race as has been said, was to be the feature event of the day. The crowd surged happily from the lake-shore to line up in orderly ranks about the oval.

The brilliant and diversified colours of the Klutchmen's skirts and head-gear showed in bright contrast to the drab wearing apparel of the white men. The Siwash Indians were dressed in nondescript clothing as to trousers and coat, but one and all wore wide-brimmed cowboy hats and displayed silk handkerchiefs of gorgeous hues, knotted at the throat to drape their shoulders carelessly.

Three husky farmers' sons from Pemberton rode to the starting-line amid hearty hand-clapping and shouting from their friends. A swarthy-skinned rider, mounted on a spirited black cayuse, came prancing through the crowd. He lifted his hat and smiled in acknowledgment of the plaudits of the spectators. This was Joe Lafonte, the half-breed who had won first prize at the Lillooet races for the past two seasons.

The wise ones averred that Paul John, of the Indian contingent, would give him a hard race. Paul John's cayuse was young, but the previous year he had run the half-breed's horse a close second. Money was being placed on all sides, particularly by the Indians, who are inveterate gamblers. Amid an excited babble in Chinook, nine Indian riders came laughing and shouting, with much waving of hats, to prance about and display their horsemanship before the admiring crowd.

Donald, with Andy, Gillis and Wainwright, stood leaning over the edge of the judges' stand watching the animated scene below.

At this moment there was an agitation at the far end of the oval, where the crowd opened to admit a horse and rider that came tearing down the course like the wind.

"Look!" Donald shouted excitedly as he seized Wainwright's arm. "It's Connie!"

Down the course, riding like a spirit of the woods, came the girl, her golden hair blowing about her face, sitting astride her mettlesome horse and riding as if the wilderness belonged to her alone.

Pegasus was not used to crowds. With arched neck and quivering flanks he reared on his hind-legs to

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

New Books Published

Last year holds the record for the number of books published. There were 10,612 new books, and 3,787 new editions issued in 1928, compared with 10,334 new books, and 3,176 new editions in 1927.

WINDOLITE

MADE IN ENGLAND

The Improved
Glass Substitute

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

ITEMS OF INTEREST

Some 6,000 homesteads or approxi-
mately 1,000,000 acres in the Grande
Prairie district and in the Peace River
Block in British Columbia will be
thrown open for entry in the near fu-
ture according to word received at
Grande Prairie recently from the
Department of the Interior, Ottawa.
This area includes land formerly held
as forestry preserves lying between
the sixth meridian and the B.C.
boundary line and bounded on the
north by the south line of Township
81 and on the south by the Wapiti
River. An additional area will also
be surveyed and thrown open to
homesteading. It is expected that
entry may be made for some of these
lands by about April 15th.

A program of very successful agri-
cultural short courses held at various
points in the province has just been
concluded by the Department of
Agriculture. Four-day courses were
held at Lethbridge, Hardisty, Sedge-
wick and Mundare, a three-day course
at Manola, two-days at Innisfail and
one-day meetings at High River and
Vauxhall. At a number of these
points as many as 150 farmers were
in attendance. Instruction was given
in field husbandry, weed control, live
stock, poultry raising and farm
power. This has been the most ex-
tensive short course program carried
out by the Department of Agriculture
for a number of years and the results
are reported to be highly gratifying.

Over 1,000 teachers from all sec-
tions of the province are meeting in
Edmonton during the coming week to
attend the sessions of the 19th An-
nual Convention of the Alberta
Educational Association. Speakers
during the convention will include a
number of outstanding authorities on
educational affairs.
